

# Ramsar 482

## Stories of the Fairy Tern Conservation, through science and art

PHCC invite you to register for unique evening to explore the beauty and fragility of the Fairy Tern. Join special guests scientist Nic Dunlop and artist Sue Kalab as they share their stories on the Fairy Terns and invite you to become part of the new story of Fairy Tern conservation in Mandurah

- DATE: Thursday 14th September
- TIME: 5pm – 7pm
- LOCATION: PHCC – 58 Sutton Street, Mandurah WA 6210
- COST: Free
- RSVP: **P:** 6369 8800 or **E:** sharon.meredith@peel-harvey.org.au

During the session the participants will be invited to assist in the creation of the Fairy Tern decoys by painting a decoy in the correct colours. The finished decoys will be placed in the Fairy Tern Sanctuary to attract the Terns to the site.

*Light refreshments provided*

*Places are limited so please be quick to register*

**Dr Nic Dunlop** is a terrestrial and marine ecologist with special interests in seabird populations. Dr Dunlop will speak about the new conservation project, the Fairy Tern Sanctuary to be located at Mandurah Marina that will assist in researching, monitoring and protecting these special birds. It is an opportunity to learn from a highly regarded expert about these beautiful endangered shorebirds.

**Sue Kalab** is a watercolor artist, her work is inspired by nature and aims to portray its peaceful and serene qualities. Sue will showcase her paintings on Fairy Terns and shorebirds and speaks about the fragility of the coast and what drives her to make a contribution to conservation through art.

natural resource  
management program

PHCC is proud to support the Fairy Tern Sanctuary, an initiative developed by the City of Mandurah  
This project is supported by funding from the Western Australian Government's State NRM Program
